

Two pieces of common single sided PCB material. 12 x 9 inches and 9 x 6 inches.
Spaced with 1 inch 6-32 nylon spacers.

Wood block for base with $\frac{1}{4}$ -20 tripod mounting hole.

Panel mount BNC jack, wood mounting block, and nylon screws.

50 ohm resistor and 10nF cap. Small 1/8 watt and monolithic leaded cap is best since surface mount parts are too fragile.
